

FABRIC

Rx is an engineered polyester-based fabric designed for air dispersion in critical environments. Rx filament based fabrics offer a lightweight, highly permeable textile that features an antimicrobial treatment.

- Commonly used alternative to exposed single wall duct/diffusers
- Air is able to pass through the fabric with the airflow rate controlled by the fabric weave and the internal static pressure
- Airflow can be delivered exclusively through the porous fabric or can be combined with various venting options to achieve desired airflow
- Antimicrobial agent (up to 30 washes)
- Includes up to 50% post industrial recycled content
- Machine washable
