# PERSONALIZE IT!

You've decided to personalize your DuctSox fabric air dispersion system.

Now what? There are several different standard options to choose from. If those don't meet your needs, we also have custom options available.

COLOR OPTIONS

### ONE COLOR

This includes text and simple one-color logos and images.

### FULL COLOR

This includes all multi-color logos and images.

**NOTE:** One color and full color options can be combined. This is an excellent option to use if you have a full color logo accompanied by one color text.

(Other fonts are available upon request. Font choice may affect price.)

ARTWORK

**VECTOR IMAGES** are preferred. Vector art is line art that is not resolution dependent so it can be scaled to any size without loss of quality. Acceptable file types include:

- Adobe Illustrator (.ai and .eps)

**RASTER IMAGES** may be used depending on the image. Raster art is resolution dependent meaning the image cannot be enlarged beyond 100% size without having quality loss. For these types of files, the resolution must be 200 dpi at 100% size and a custom quote is required. Possible file types include:

- Adobe Photoshop (.psd)
- TIFF (.tif) or BMP (.bmp) format

**NOTE:** We do not recommend using an image from a website. These images are highly compressed and the resolution is far too low. They do not meet our quality standards. If files need to be re-created, additional fees will apply.
